SUPREME COURT—Special Term—Befere Judge Mitchell—Decisions.—Hash White set, the Usica and Schenectady Railroad Co and others.—Is this case, a temporary injunction had been granted. The Usics and Schenectady Railroad Co was incorporated, the Court said, in 1833, to make a Railroad from Schenectady, on the north side of the Mohawk, to the village of lierkimer, and to terminate in the city of Usica, at such point as the Common Council of that city should designate. It was expressly made subject to the general restrictions and habititles prescribed by the 18th chapter, first part of the Revised Statutes as were not repealed—one of which is that the charter of every corporation that should be granted after the Revised Statutes took effect, should be subject to alteration, supposion and repeal, in the discretion of the Legislature. Section 19 of the Company, declares that the Legislature may, et any time, after, modify, or repeal this act. The plaintiff has been a large stockholder in the Company, for more than four years back, and complains that, in April, 1851, the Legislature pussed a law authoriting any raitread corporation in the State, with the concent of two-thirds in amount of the stockholders, to loan its credit, or become the owner of stock in the Great Western Railroad Company, Canada West, to an amount not exceeding 5 percent of the capital of said company so loaning its credit, or subscribing to stock, providing the eastern terminus of the road should be at some point on the Niagara River,—and that the directors of this Company threatened to subscribe to the stock of the Canadian Company, and had done so, although the complainant and some other stockholders objected. More than two thirds of the stockholders objected. More than two thirds of the stockholders objected. More than two thirds of the stockholders of the canadian to have expressed their dissent, except

though the complainant and some other stockholders in jected. More than two thirds of the stockholders in amount have given their assent to the subscription, and none are shown to have expressed their dissent, except the plaintiff and one of the directors.

The Court referred to the constitutional points of the case, and also to the objection that it could never have been the intention of the Legislature to authorize or compel subscription to a foreign borporation. It considered the points not tenable. This State has no more power of legislation over Pennsylvania or New-Jersey than it has over Canada, yet if it becomes important to the public that the Eric Railroad should pass through a part of Pennsylvania or New-Jersey, or that a road should be made in either or both of those States, has the State surrendered the power of authorizing or compelling the Eric Railroad Company to ald in the completion of such road through those States, or would have be wisdom in the State surrendering that power? So too as to connecting in the other neighboring States. there be wisdom in the State surrendering that power is to too as to connecting in the other neighboring States. The great object of most of the Atlantis States is to secure the Western trade. For this purpose the quickest route may possibly be through Canada to one of our sister States. A bridge across Nisgara might be essential to the continuous travel which now the public require to be conducted with railroad speed, and a railroad through parts of Canada may be just as necessary to complete the chain of shortest routes, or to create that completion which is so essential to safe, rapid and cheap traveling. Of all this the Legislature is to judge, and the Courts and the parties are to submit to its authority and to appeal to it alone for a repeal or a modification of its laws.

The question now raised is, whether the defendant has a right to remove this cause to the Circuit Court of the Southern District of this State. The Court considered that, being a chose in action, the original party could not bring the suit in the U. S. Circuit Court here, and that the assignee cannot. The order entered by default allowing the cause to be removed into the U. S. Court vacated, and the motion to remove the cause denied, but without costs, and with a stay of proceedings to enable the defendants to appeal to the General Term, if they elect.

Silk, Paris Printed Jaconets, Lawns and Organdic Muslin, all of the newest styles, reduced varily 50 per cent, from last weeks prices—all owing to the advancement of the Summer, and the great objection of retaining Dress Goods over their season. As the present opportunity offers such unheard-of bargains, we presume Columbian Hall will this week, at least, present a lively appearance.

The assortment consists of some twenty different patterns, each style peculiar to the production of those artists, colebrated for their taste in the manufacture of Mantillas, among which may be found 500 rich black, plain and watered heavy fringe, with extra trimmings, from 85 to \$1, unequaled by any article in this City. ### BROOKLYN ITEMS.

EXTENSIVE FIRE - GREAT LOSS OF EXTENSIVE FIRE—GREAT LOSS OF PROTERTY.—Last evening about 7 o'clock a fire broke out in the rear of the large four story brick building on Columbia-st, near Pacific, occupied as a tobacco and cigar manufactury by Mr. Wm. II. Watson. The fiames soon communicated with the factory, which, being stocked with a large amount of combustible materials, was speedily enveloped in flames, and burned with great fury for hearly an hour, when the walls fell down with a loud crash. It is supposed, and there can hardly be a doubt, that it was the work of an incendiary, as this is the third fire that occurred in the immediate vicinity within the previous 4s hours.

third fire that occurred in the immediate vicinity within the previous 48 hours.

Mr. Watson estimates his loss at over \$20,000, on which there is an insurance of \$17,400 in the following New-York (flices.—Astor Insurance Co., \$2,500; Empire City, \$4,400; Grocers, \$3,500; Commercial, \$4,500; Hudson River, \$3,000. A considerable portion of the stock was saved. The building was owned by Mr. Chas Keley, and was insured for \$2,000 in the Hudson River Company. It was worth about \$5,000. A building, adjoining, occupied by Mr. Thomas Watson, as a linware store, was damaged to a small extent. His goods were considerably injured, however, by rough masse.

A few hours previous, a fire broke out in the stable owned by John Wood, rear of Hungerford and Walls Sumber yead, foot of Harrisonet, and was burned to the ground. One horse was destroyed with the stable, and snother, a very valuable one, was badly scorched. The lees is about \$300. The lumber was not much damaged.

SERIOUS ACCIDENT .- On Wednesday evening Mr. James Simpson, a milkman, while engaged lu loading his cart at a distillery in Furman-st, was thrown down and run over in consequence of a sudden start of the horse. The whisel passed over his body.— Alls injuries are of such a nature as to forbid all hope of recovery. His family reside corner of Bond and Douglass sta.

ACCIDENT.—Isnac Mead was badly in-jured at the fire in Columbia-st, yesterday afternoon, by being run against by one of the engines. He was taken to his home, corner of Court and Wycoff sta, by the Third Police.

IF A woman was found lying on a stoop in Kelsey's alley, yesterday afternoop, apparently in a dying state. No one shout there seemed to know her, and directions were given by the Chief of Podceto convey her to the Hospital.

There are at the present time no less than eight Fire Engines out of use le Brookly, two of which were disabled last evening, and Nos. 1, 3, 13 and 18 at previous fires, and two are locked up on account of the bad conduct of the members.

A PLATE OF SOUP .- Last evening the Excelsior Whig Association held a meeting in the Taird Ward, corner of Messerole and Ewen-sts. Among other anthusissite arrangements was a moustrous soup-kettle, from which "hasty plates of soup" were provided. The meeting was conducted in a spirited manner.

THE RIOT COMMITTEE .- At 2 o'clock. THE RIOT COMMITTEE.—At 2 0 clock, yesterday, the Committee which is engaged in investigating the late riot, met and resumed the examination of witnesses, which was continued until near 6 o'clock, at which time the Committee adjourned to next Tuesday evening at 7 o'clock. It is evident from the persevering course pursued by those having this investigation in charge, that the intention of the authorities is to put an end to riots and outrage among fremen.

CASE OF STABBING .- Chas. Burtholdt, who stabbed his brother-in-law, has been arrested by Officer Cunningham.

### JERSEY CITY ITEMS.

THE CONTESTED SEATS.—The Committee, whose duty it has been made, to lay the charter and all the proceedings of the Common Council and Mayor relating to the late resignations and election, before distinguished counsel for an opinion, which is to central the conflicting claims for seats, and allow the Board to organize, went to Trenton yesterday with the papers, to obtain that opinion. In consequence of Ald. Wallis, Chairman of that Committee, having occasion to go to Albany, Ald. Brekaw went in his stead to Trenton. It has been understood, by some at least, that the opinion obtained will be the final adjustment of the difficulty. Such, however, may not be the best course. The parties considered by the opinion as having no right to seats, ought to push the matter to evidence and to a decision, which cannot be overturned. There are those who sincerely differ in judgment in this vexed affair, and whatever may now be obtained as a guide to an organization, will meet with conflicting opinions. For instance, call to mind the conflicting opinions and decisions of eminent counsel and superior judges, on the constitutionality of the Canal Law of New York, during the past year or two. Occasion is liable to arise, whersin this matter may be contested by interested parties, and upon a regular trial, with argument, a decision may be given different with this opinion. It is essential to the public confidence in municipal affairs, that this difficulty be settled in the clearest and most final manner, and beyond doubt or apprehension. It is a duty which the Board of Aldermen owe the people of the city so to settle the matter hereafter so as to leave no fear of its ever being shaken or overturned. THE CONTESTED SEATS .- The Com-

GAS AND SHRUBBERY .- In order to prevent injury to the trees and shrubbery of the city, by the escape of gas, the workmen engaged in laying gas pipe through the streets are putting the joints together in the closest manner.

THE CITY PRISON .- Much complaint is made that the so called City Prison, in Sussex-at, which was previously occupled for the purposes of an engine company, is altogether too small for the number of prisoners required to be stored there while undergoing an expression of the public sentiment concerning them.

IMPROVING.—The German, Diedrich Schneiar, who was so severely lajured by the cars, near Bergen Cut, lies at the American Hotel, very weak, but improving. His leg has been amputated, his arm will be when he gains strength for the operation, and his ribs are broken.

LADIES' FAIR .- The fair of the Ladies' Society, of the Church of the Holy Trinity, at Bergen, opened yesterday, at the house lately occupied by Mrs. Hedden in York-street. It will continue this afternoon

LOST HIS MONEY .- One of the passengers for the 5 o'clock train for Philadelphia, last evening, had his pocket eased of \$130 while crossing in the ferry-boat to Jersey City to take the cars.

The Pennsylvania Coal Company have published their annual report, for the year ending 1st May. The Company brought to market in the year 315,000 tuns. The net profits of the year's business amount to \$147,080 42, equal to 6 P cent, on the capital stock. The earnings of the partial business of 1850, in cluding the profits of the Wyoming Coal Association, at the time of annexation with this Company, amount to \$78,424 34, making a total of \$226,404 76, equal to 9 in \$7 cent, on the capital stock. The Company has mastered all the difficulties of its commencement, and declares the time for making regular half-yearly dividends has ar rived. It has commenced with a dividend of 3½ P cent. The profit and loss account stands thus:

to the credit of a reserved fund large enough to insure regular dividends for the future.

The Company henceforward sells its own coal, using the Hudson and Delaware Canal for transporting it, at a

permanent tartif of tolls. It has opened yards in New York and Brooklyn, in addition to four blocks of ground and plers owned at Williamsburgh. A dépôt has been formed also at Port Ewen, on the Hudson, with docks and basins for its boats.

The Company contemplate bringing 400,000 tuns of

coal to market this year, a large proportion of which has been contracted to be sold. The assets of the Company 

This is the most profitable coal road extant, considered as to its present working only, while its prospective merits are as encouraging as any to the stockholders. It certainly is the best managed coal road we are atquainted with. The lands of the Company at Pittston and its vicinity contain an inexhaustible supply of the purest coal for an indefinite period.

The affairs of the Vermont Central Corporations are in a very unsettled state. It is stated that the largest purchaser of the second mortgage bonds at the late auction sale declines to respond to his bargain until a new Board of Directors is chosen. Part of the 52 bond holders have obtained their money, while others hold the checks of the Corporation, which will probably be paid very soon. The Corporation is making a strong effort to relieve themselves of their present embarrass-

ment, and will doubtless resume payment in a few days. It is stated that the Treasurer of Massachusetts has received and accepted an offer through Mr. Belmont, on behalf of the Rothschilds, for the issue of \$100,000 State scrip, authorized under the act for the erection of the second hospital for the insane. The scrip is made psyable in twenty years at 5 \$\psi\$ cent , and the terms are \$104 50.

specially to the unitring and sencessful efforts of your Trensurer. If there be any ment in the issue, they are entitled to the fullest meed of praise from you. I feel grateful to them for the support they have given me in the discharge of a class of auties which although they may have brought the President more prominently before the body of Stockholders, could not have been satisfactor by performed without their enoperation and aid. For myself, I claim no other merit than that of having endeavored to discharge the duties devolved upon me according to the best of my ability and with a single eye to your interest. To you, and to those who have those to your interests. To you, and to those who have those interests in charge, I commit them, in the hope that they will be safely and properly protected. But it should be borne in mind that an exterprise of this character, however meritorious in irself, cannot be permanently occasional an architecture. however meritorious in irreff, cannot be permanently successful as a profitable investment without constant vigilance, devoted laber, and an unremitted attention to the economy of its administration. That these will be extended with eminent success I cannot doubt: without them, the best and most promising enterprise will prove a failure.

I am, very respectfully, your obedient servant, derica, July 1, 1882.
